

KHAWAR YAQOOB

Web Developer ❖ Graphic Designer

Summary:

Strong analytical skills and a broad range of computer expertise including 20 years of PHP Development experience in PHP/MySQL, jQuery, CSS based Web Applications. Worked with US, UK and Canadian clients as a freelancer since 2012. I am not only good at development and maintenance of websites but can also develop custom business solutions and automations for your business.

Problem-solver by nature with ability to understand complex systems and identify opportunities for improvements and resolution of critical issues.

Experience:

- Worked both on Frontend/Backend of PHP and WordPress Applications
- Vast experience of managing web hosting servers, CDN and Security Services
- Strong Design Implementation into custom WordPress themes or tailored applications, maintaining fidelity to the provided designs.
- Detailed Oriented: I am an individual with a keen eye for detail
- Extensive knowledge in PHP/MySQL, HTML5, CSS3, and XML.
- Also proficient in jQuery, AJAX, JSON
- Expertise in responsive web design technologies to ensure compatibility across devices.
- Experience integrating payment gateways
- Fluent in English, Strong communication, and able to work during US business hours.
- Using GravityForms to develop WorkFlows for a paperless organization
- Great at Troubleshooting, on-page SEO and speed optimization
- Experienced on Elementor, Divi, Visual Composer and Beaver Builder
- 4000+ Hours Upwork
- Fast Learner, Details Oriented, Team Worker
- Fair experience of Raster/Vector Graphics and Designing
- API Integration: Connect your web product to a third-party API and process the data that comes from it. For example, real-estate services and payments.
- Expertise in GA4, Social Media Integration, Lead Generation, Work Flow development etc.

House# KH 482, Street#13c,
Madina Colony, Misriyal Road,
Rawalpindi.
